PROFESSIONAL SUMMARY

Detail-oriented and proactive IT Professional with a Bachelor's Degree in Informatics Engineering (S1 Teknik Informatika) and extensive hands-on experience in Linux server administration, network infrastructure maintenance, multi-point CCTV surveillance deployment, and cross-department hardware/software troubleshooting. Certified by Cisco Networking Academy (IT Essentials) and Dicoding Academy across Python, SQL, and Data Science. Proven track record of delivering responsive Tier-1/Tier-2 helpdesk support, maintaining IT equipment uptime, and applying industrial quality control discipline. Seeking to advance career as an IT Administrator / IT Support Specialist in a forward-thinking corporate environment.

TECHNICAL SKILLS & COMPETENCIES

- **Operating Systems & Servers:** Linux Server Administration (Ubuntu/Debian), Windows 10/11, Windows Server basics, Active Directory fundamentals.
- **Networking & Infrastructure:** LAN/WAN Configuration, TCP/IP, Router & Switch Management, Structured Cabling (Crimping/Patching), Wi-Fi AP Setup, Network Diagnostics.
- **Hardware & Surveillance:** PC/Laptop Assembly & Troubleshooting, Component Upgrades (RAM/SSD), Hardware Diagnostics, Multi-channel CCTV & DVR/NVR Systems.
- **Programming & Databases:** Python (Scripting & Data Analysis), SQL (Relational Queries, DDL/DML), Git & GitHub, IoT Microcontroller Interfacing (ESP32/Arduino).
- **IT Operations & Support:** Tier-1/Tier-2 Helpdesk Support, Preventive Maintenance, System Diagnostics, Software Deployment, IT Asset Logging.
- **Professional Soft Skills:** Analytical Problem Solving, Quality Assurance (QA/QC), Cross-Departmental Communication, High Discipline, Fast Learner.

PROFESSIONAL & INTERNSHIP EXPERIENCE

PT OSCAR MAS

Kawasan Industri MM2100, Cikarang Barat, Bekasi

IT Administrator (Internship)

11 September 2025 – 10 March 2026 (6 Months)

- Deployed, configured, and maintained Linux-based operating system servers to support internal data management and application environments.
- Managed end-to-end installation, structured cabling, IP configuration, and routine maintenance of multi-channel CCTV surveillance systems across plant facilities.
- Administered and maintained local network infrastructure (LAN, switches, routers), proactively diagnosing and resolving connectivity bottlenecks.
- Delivered Tier-1 and Tier-2 hardware and software technical support for 50+ corporate laptops and workstations across various departments with high user satisfaction.
- Conducted routine preventive hardware maintenance, thermal management, component replacements (RAM/SSD), and operating system installations/upgrades.

PERUMDA TIRTA PATRIOT (PDAM KOTA BEKASI)

Bekasi, West Java, Indonesia

IT Support Specialist (Internship)

3 Months

- Provided desktop, printer, scanner, and local network troubleshooting support for office personnel across administrative divisions.
- Assisted network administration team in routine system data backup workflows and scheduled hardware preventive cleaning.
- Responded promptly to employee helpdesk requests, logging technical incidents and facilitating rapid problem resolution.

PT ZHISHENG PACIFIC TRADING (MIXUE INDONESIA)

Rawalumbu, Kota Bekasi, Indonesia

Store Crew (Part-Time)

3 Months

- Executed daily store operations, accurately processed Point of Sale (POS) cashier transactions, managed raw material inventory, and delivered high-quality customer service.

PT GARUDA METAL UTAMA

Kawasan Industri MM2100, Cikarang Barat, Bekasi

Quality Control Inspector (Internship)

6 Months (2021)

- Conducted precise manual and dimensional inspections on brake fitting component production lines for prime automotive client PT Yamaha Motor.
- Enforced strict manufacturing quality control and 5S standards, identifying component defects to reduce production scrap rates.

PT CHIYODA INDUSTRI INDONESIA

Kawasan Industri MM2100, Cikarang Barat, Bekasi

FCAW Production Welder (Internship)

6 Months (2022)

- Operated FCAW/CO2 welding equipment for vehicle seating frames assembly complying with stringent safety and structural standards for PT Mitsubishi Krama Yudha Indonesia.

TECHNICAL PROJECTS & HARDWARE SHOWCASE

Smart IoT Multi-Sensor Prototype & Telemetry Monitoring

GitHub: github.com/frlmhmmmd

Hardware Systems & Telemetry Integration

Personal Project

- Designed and assembled an IoT hardware prototype integrating microcontroller circuitry, multi-sensor modules, and data transmission lines.
- Implemented Python data pipelines and telemetry scripts to acquire, clean, and visualize sensor data metrics in real time.

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- IT Essentials: PC Hardware and Software -- Cisco Networking Academy
- Belajar Dasar Pemrograman Python -- Dicoding Academy
- Belajar Dasar Structured Query Language (SQL) -- Dicoding Academy
- Belajar Dasar Data Science -- Dicoding Academy
- Belajar Dasar AI (Artificial Intelligence) -- Dicoding Academy
- Belajar Dasar Visualisasi Data -- Dicoding Academy

EDUCATION

UNIVERSITAS BANI SALEH

Bekasi, West Java, Indonesia

Bachelor of Informatics Engineering (S1 Teknik Informatika)

2022 - 2026

- Cumulative GPA (IPK): 3.33 / 4.00
- Core Focus & Coursework: Programming, Computer Networking, Data Science, and IT Troubleshooting within Informatics Engineering.

SMK TELEKOMUNIKASI TELESANDI BEKASI

Bekasi, West Java, Indonesia

Vocational Diploma in Computer and Network Engineering (TKJ)

2017 - 2020

- Final Average Academic Score: 83.00 / 100
- Core Subjects: Computer and Network Assembly, LAN/WAN Configuration, Server Administration, Network Operating Systems, Routing and Switching.
